*"Creating the energy of the painting,
the true essence of my subject
in their natural environment,
is more important to me than
a detailed record of the reality*

*I attempt to portray the true beauty of
the subject in the fewest strokes possible."*

Jane Romanishko, was born in Russia in 1964 and earned a Bachelor's Degree in Art Education, studying art history, painting and drawing in Eastern European traditions. Jane also holds a Master's Degree in Architecture.

Jane has participated in numerous group shows and solo exhibitions, including the Calgary Stampede Western Showcase, the National Finals Rodeo in Las Vegas and Reflection West in Hyatt Regency, Calgary.

Over the years, Jane has received numerous awards and recognitions, including the Nicholas de Grandmaison Award for Excellence in Pastel Portraiture from CIPA National Open Portrait Exhibition.

She divides her time living in Calgary in the summer where she paints, sculpts and teaches art, and Mexico where she facilitates art retreats during the winter.

Jane paints her landscapes exclusively En Plein Aire, which allows her an emotional connection with her subject matter. She is intrigued by the energy and poetry of light and enjoys painting her reaction to the scene, rather than copying it. In pursuit of achieving the balance between reality and her impressionistic interpretation of it, she leaves some mystery for the viewers to use their imagination to fill the missing pieces.

Jane is equally proficient in oil, watercolor and pastel. She has developed a passion for teaching art and excels in her role as artist, facilitator and instructor.
