

Art Society of Strathcona County

COACHING FOR THE CREATIVE

with **CARLEEN ROSS**

Coaching for the Creative is designed to help the participants acquire the knowledge of how to make more meaningful posts, create more personal artist statements, learn ways to run their business and engage with galleries or businesses through their innate strengths and values. The material comes through the lens of Positive Psychology and is crafted to suit any level of artist or creative. It will be interactive, and with each learning segment, there will be exercises for the participant to dive deeper into understanding who they are and want to be as an artist. Positive Psychology is the science of what is right with an individual and has the sole purpose of promoting well-being. It is used in many different industries with success. Positive psychology can create a lasting change for anyone open to exploring themselves in a new way.

September 28, 2024
